### **Notice of Intention to Commence Large Mining Operations**

### Red Leaf Resources, Inc.

## Southwest #1 Project, Uinta Basin Introduction and Project Background

Red Leaf Resources, Inc. ("RLR" or "Red Leaf") holds oil shale mineral leases on 16,838 acres on School and Institutional Trust Land properties in the Uinta Basin.

RLR has previously performed process testing under its Exploration Permit #E/047/0055. Exploration activities included a core drilling program for resource assessment. Total acreage of the exploration activity was 5.8 acres. This acreage incorporated 4.7 acres for excavation, process testing, and roads. An additional 1.1 acres was temporarily disturbed for purposes of drilling and resource evaluation during June 2010. All drill hole locations were reclaimed by August 2010.

RLR's Exploration permit was converted to a Small Mining Operation (SMO) in January 2011, with final approval for operations on January 27, 2011. The SMO activities encompass 4.97 acres for mining, process operations, and road access.

RLR filed for an exploration permit, Southwest #2, E/047/0062, on March 24, 2011 for purposes of conducting additional exploration activities. Activities associated with this exploration permit were incorporated into this LMO NOI in April 2014, and the exploration permit was terminated. For information purposes, the disturbed areas under E/047/0062 for Southwest #2 and related holes are outlined in Appendix W, Exploration Permit Activity Locations.

It is now RLR's intention to expand activities at the Southwest #1 small mine site and convert it to a Large Mining Operation (LMO) as identified in this NOI. The disturbed area under E/047/0062 will also be included under the planned Large Mine Operations.

The location of RLR's Southwest #1 project includes acreage held in its SITLA Mineral Leases (ML) 50150 and 43374. The acreage associated with this mine plan from ML 50150 includes

# Appendix W Exploration Permit Activity Locations

Table W-1 and Figure W-1, attached to and made part of this appendix, outline the locations of holes associated with Red Leaf's former exploration permit, Southwest #2, E/047/0062.

Subject: MR-REV for Southwest #1 - M0470103 - Exploration Permit Amendment - Application for Exploration Permit Bond Release - Ten (10) Additional Core Holes

Dear Ms. Abate:

Red Leaf Resources, Inc. (Red Leaf), hereby requests that our Exploration Permit (E0470062) be added to our Large Mining Operation (LMO) Notice of Intention (NOI) (M0470103), including the recently requested ten (10) core holes. Red Leaf also submits herewith an application for release of the Exploration Permit bond.

The MR-REV with replacement and additional pages for this request is attached, along with the Form MR-Site/Bond Release application and its associated attachments. Redlined replacement pages are also provided for informational purposes.

Should you have any questions about this request, please contact me at 801-878-8100.

Sincerely,

Jay K. Vance, P.E.

Jay K. Vance
